

In Ict we are studying Corporate image and producing leaflets. We were first asked to design a leaflet that was the cover of a magazine so we had to put the same logo the same title and so on. Then we had to do a leaflet about a subject of your will and put the school logo and pictures relevant . We were told about how you can get the same logos and things that would help us design it. We have quite a lot of fun doing it.. And it teaches you a lot of things too.

In year 7's English Literature we are learning about William Shakespeare 's plays and works of English. We have started with the play Romeo and Juliet and we are studying all of what he has included as grammar. Mr. Laytham told us that Shakespeare was a very clever writer and person and that he discovered and added a lot of things to our English grammar . We've been told that his plays are still watched and read all over the world even though it was old
